YOU CAN ENJOY YOURSELF

at home or away, if you are in good health. More often than not a change of scene brings about a change in the system, not always for the best, and then, instead of being braced up, you feel depressed. If BEECHAM'S PILLS are resorted to at such a time, they will work wonders, and it is surprising how differently things look when the excess of bile is removed from the body. You have long been advised never to travel without BEECHAM'S PILLS, and there are very many thousands who act on this advice. The practice is becoming general among travellers everywhere. BEECHAM'S PILLS may be taken at any time. On the first indication of something wrong, a dose saves many an aching head, and many a Guinea, and may prove the turning point of a holiday being a happy one. As a remedy for costiveness, which is so often produced by climatic change or a difference in diet, there is absolutely nothing better than BEECHAM'S PILLS. As a preventative of Nausea or Sea Sickness, a safer or more effective medicine than BEECHAM'S PILLS has yet to be discovered. BEECHAM'S PILLS are not a foreign remedy heralded by new-world methods and backed up by testimonials and portraits of persons who have been found by those interested as ready to testify to order. Here is a fact which surely should convince the most sceptical—BEECHAM'S PILLS have been before the public for more than 50 years and have a sale exceeding 6,000,000 boxes yearly, a record demand which has been achieved without the publication of testimonials, the simple truth being that
